Cookie Statement

When you visit any website, it may store or retrieve information on your browser, mostly in the form of cookies. Cookies are small text files that are transferred to your computer's hard disk by a website. This information might be about you, your preferences or your device and is typically used to make the site work as you expect it. The information does not usually directly identify you, but it can give you a more personalized web experience.

Because we respect your right to privacy (*http://www.gilead.com/privacy/website-privacy-statement*), you can choose not to allow some types of cookies. Please click on the different category headings below to find out more about the categories and options to change your default settings. However, note that blocking some types of cookies may impact your experience with the site and the services we are able to offer.

Strictly Necessary

These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but if you do so, some parts of the site will not work. These cookies do not store any personal information.

Performance Cookies

These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site. All information these cookies collect is aggregated and therefore anonymous. If you do not allow these cookies we will not know when you have visited our site, and will not be able to monitor its performance.

Functional Cookies

These cookies enable the website to provide enhanced functionality and personalization. They may be set by us or by third party providers whose services we have added to our pages. If you do not allow these cookies, some or all of these services may not function properly.

Targeting Cookies

These cookies may be set through our site by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant ads on other sites. They do not store directly personal information, but are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising.

Social Media Cookies

These cookies are set by a range of social media services that we may have added to the site to enable you to share our content with your friends and social or professional networks. They are capable of tracking your browser across other sites and building up a profile of your interests. This may impact the content and messages you see on other websites you visit. If you do not allow these cookies, you may not be able to use or see these sharing tools.
